

Professor Steven McLoon Course Director

Training & Previous Positions:

- Professor McLoon flunked out of woodworking school. He was homeless and living in the basement of Jackson Hall until the recent renovations. He was sleeping on the floor upstairs in Jackson Hall, when the department chairperson walked by and assumed he was a faculty member. He directed McLoon to teach Nsci1100.

Research:

- Molecular mechanisms of retinal development

Email address:

- mcloons@umn.edu

Professor Yasushi Nakagawa
Laboratory Course Director

Training & Previous Positions:

- M.D. from University of Tokyo
- Residency in Internal Medicine & Neurology
- Ph.D. from University of Tokyo
- Postdoc. at the Salk Institute

Research:

- Molecular mechanisms of forebrain development

Webpage:

- www.neurosci.umn.edu/faculty/nakagawa.html

Email address:

- nakagawa@umn.edu

Professor Robert Miller
Section 2 & 3 Instructor

Training & Previous Positions:

- B.S. from Utah State University
- M.D. from University of Utah
- Professor at State Univ. of New York
- Professor at Washington University

Research:

- Physiology of retinal neurons

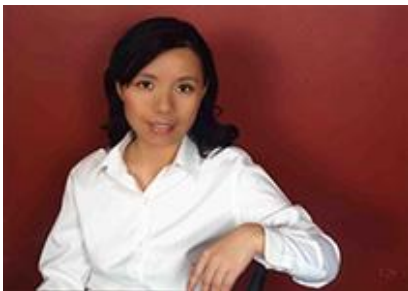

Webpage:

- www2.neuroscience.umn.edu/RFM/miller.html

Email address:

- rfm@umn.edu

Professor LiLian Yuan
Section 4 & 5 Instructor

Training & Previous Positions:

- B.S. from Peking University
- Ph.D. from University of Wisconsin
- Postdoc. at Baylor College

Research:

- Mechanisms of synaptic signaling

Webpage:

- www.neurosci.umn.edu/faculty/yuan.html

Email address:

- yuanx033@umn.edu

Professor Michael Lee
Section 6 Instructor

Training & Previous Positions:

- B.A. from Macalester College
- Ph.D. from University of Virginia
- Postdoc. at Johns Hopkins
- Professor at Johns Hopkins

Research:

- Pathogenesis of neurodegenerative diseases

Webpage:

- www.neuroscience.umn.edu/ProStu/facprof/Lee.html

Email address:

- mlee@umn.edu
